A NEW URBAN PERSPECTIVE

“SIMPLE” IS NOT A WORD OFTEN USED WHEN DESCRIBING SOMETHING PROGRESSIVE – YET THIS IS THE PARADOX THAT DEFINES THE NEW SVARTPILEN 401. Stripped to the bare functional

essentials, it honours the raw and uncomplicated feeling that originally attracted people to the idea of riding. Conveniently brought into the modern era with forward-thinking principles and innovative technology, these contrasts open a new gateway to motorcycle culture. A motorcycle characterised by a balance of bold combinations, it delivers a thrilling yet uncompromised riding experience.

The result is a distinctive and pure experience that uses modern technology to deliver a truly thrilling ride.

Let your
passion
be your
inspiration.

SIMPLY INNOVATIVE

COMPLETELY RAW AND EXPOSED WITH NOWHERE TO HIDE, THE SVARTPILEN 401 BARES THE PARADOX OF ITS MAKE UP FOR ALL TO SEE. FOR THE THRILL OF THE RIDE

THERE'S NO DENYING THAT PROGRESSION HAS MANY ADVANTAGES.

The challenge has never been innovation itself, but finding a way to balance the complexity of modern technology without diluting the purity of the experience. Husqvarna Motorcycles pays special attention to bringing about a suitable equilibrium that includes the significant benefits of the latest componentry, without affecting the pure thrill of the ride.

HANDLEBAR/TRIPLE CLAMP With its raised, upright offroad inspired handlebars, the SVARTPILEN 401 visually hints at a sense of urban-based adventure. Mounted to forged aluminium triple clamps with balanced flex and functionality, negotiating any inner-city detour is done with agile ease.

BRAKES Delivering confident and controlled braking, the SVARTPILEN 401 is fitted with hydraulically operated front and rear brakes. Used in combination with a state-of-the-art BOSCH ABS system, the highest level of safety is ensured, even in varying conditions. The system can also be fully disengaged for more advanced riders.

WHEELS The 17" spoked wheels are central to the motorcycle's hardy character. The distinctly styled wheels and Pirelli tyres are especially robust in the challenging urban terrain.
